

BETTINA NEWBERY

STARDUST

British contemporary painter Bettina Newbery presents her acclaimed 2022 series STARDUST during the ABSTRACT ART EXHIBITION 2026 at ESPACIO GALLERY, London.

The STARDUST series:

Nine Original Oil Paintings

Bettina Newbery's STARDUST series journeys into a radiant universe of colour, light, and geometric abstraction. Inspired by the luminosity and colour spectra of the stars, the STARDUST galaxy comprises fine oil graphic abstracts arranged in intricate kaleidoscopic patterns that appear perfectly symmetrical, yet remain an illusion.

Each one-off artwork pulses with prismatic colour, crystalline forms, and contemporary pop-inflected abstraction. Richly layered pigments and striking contrasts create dynamic compositions that evoke wonder, movement, and the electric beauty of cosmic light.

From the vivid burst of STAR I – CELESTE to the fiery intensity of STAR IV – APOLLO, the tranquil sparkle of STAR V – ORIEL, the opulent depths of STAR VI – AMETHYST, and the layered radiance of STAR VII – AUBURN, each painting explores faceted geometric forms through vibrant, contrasting colour. Together, they form a captivating celebration of light, energy, and contemporary expression.

PREVIEW: THURSDAY 27 AUGUST 6-9 PM

EXHIBITION: 28 - 31 AUGUST 2026

STAR I - CELESTE (2022)

Oil on canvas, 47 x 62 cm

STAR IV - APOLLO (2022)

Oil on canvas, 47 x 62 cm

Balancing precision with expressive abstraction, the series reflects Bettina's distinctive contemporary visual language, where geometry, emotion, and vibrant modern expressionism converge.

United by a shared artistic vision, the series captures light, movement, and emotion through dynamic interplays of colour and shadow. Each canvas invites personal interpretation, radiating joy, optimism, and contemporary sophistication. Together, these paintings form a striking series that brings a modern, energising pulse of colour and creativity to any space.
